AUTHENTICATION MODULE

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_1	Owner Login with Valid Credentials	Enter valid Owner credentials and click **Login**.	The system authenticates the Owner and redirects to the Owner Dashboard.		PASSED
TC_2	Staff Login with Valid Credentials	Enter valid Staff credentials and click **Login**.	The system authenticates the Staff and redirects to the Staff Dashboard.		PASSED
TC_3	Login with Invalid Username, Email, or Password	Enter invalid credentials and click **Login**.	The system displays "Invalid username or password." and denies access.		PASSED
TC_4	Login with Empty Username, Email, or Password	Leave required fields empty and click **Login**.	The system displays a “Please fill out this field” validation message and prevents login.		PASSED

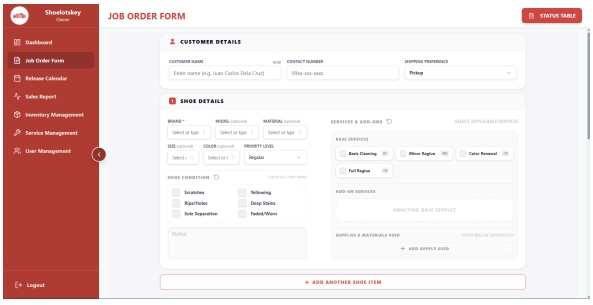

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_5	Login with Multiple Failed Attempts	Enter invalid credentials and click **Login** three consecutive times.	The system locks the account and displays "Too many failed attempts. Account locked for 15 minutes."		PASSED
TC_6	Login with SQL Injection Attempt	Enter a SQL injection string and click **Login**.	The system rejects the login attempt, displays "Invalid credentials," and denies access.		PASSED
TC_7	Login with Cross-Site Scripting (XSS) Input	Enter an XSS script and click **Login**.	The system rejects the login attempt, displays "Invalid credentials," and denies access.		PASSED
TC_8	Login with HTML Injection	Enter HTML tags and click **Login**.	The system rejects the login attempt, displays "Invalid credentials," and denies access.		PASSED

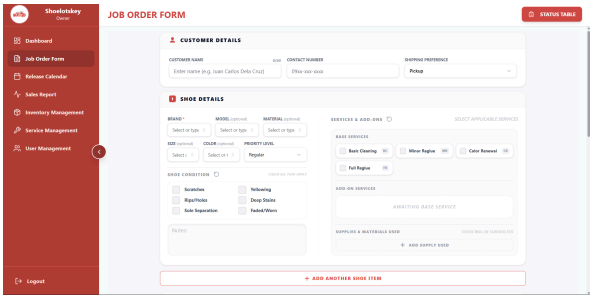

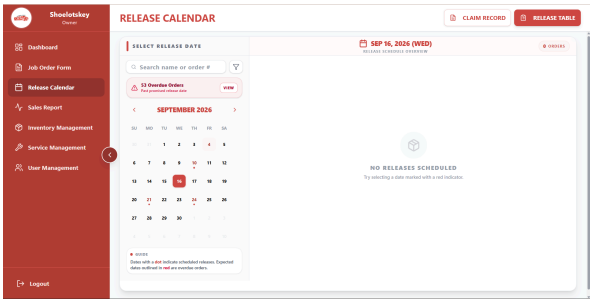

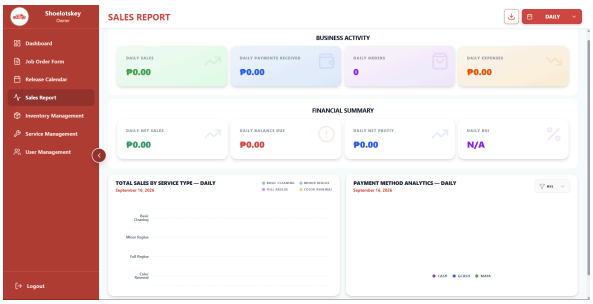

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_9	Forgot Password with Registered Email	Enter a registered email and click **Send**.	The system displays "Reset email sent successfully" and sends a password reset link.		PASSED
TC_10	Forgot Password with Unregistered Email	Enter an unregistered email and click **Send**.	The system displays "Email not found in our records" and denies the password reset request.		PASSED
TC_11	Reset Password with Valid Link	Enter and confirm a new password, then click **Reset**.	The system updates the password, displays "Password updated successfully!", and redirects to the Login page.		PASSED
TC_12	Reset Password with Password Mismatch	Enter mismatched passwords and click **Reset**.	The system displays "Passwords do not match" and rejects the password reset request.		PASSED

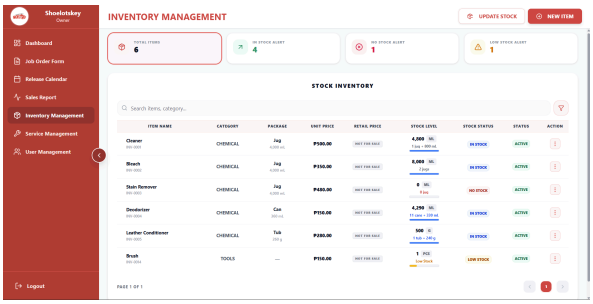

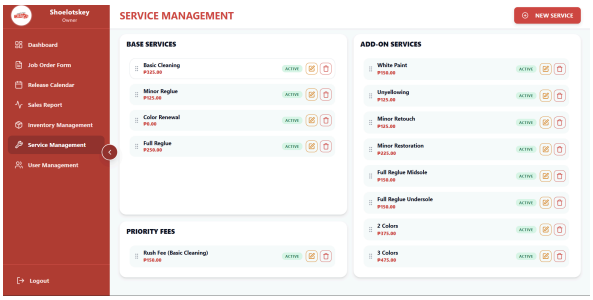

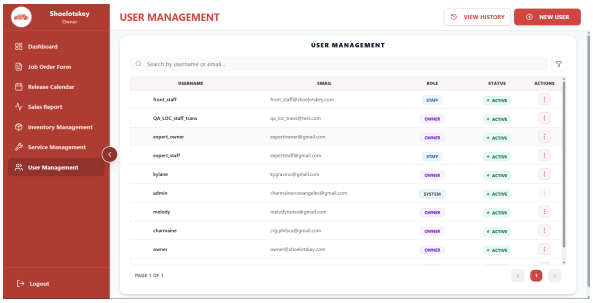

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_13	Reset Password with Current Password	Enter the current password as the new password and click **Reset**.	The system displays "The new password must be different from the current password." and rejects the password reset.		PASSED
TC_14	Reset Password with Expired Link	Open an expired reset link and click **Reset**.	The system displays "Reset Password Link Expired or Already Used" and redirects to the Forgot Password page.		PASSED
TC_15	Session Timeout Due to Inactivity	Leave the system inactive until the session expires.	The system redirects to the Login page and displays "Your session has expired due to inactivity. Please log in again."		PASSED
TC_16	Login with New Password	Enter the new credentials and click **Login**.	The system authenticates the user and redirects to the appropriate dashboard.		PASSED

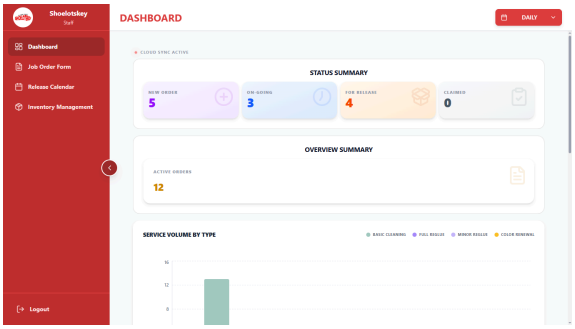

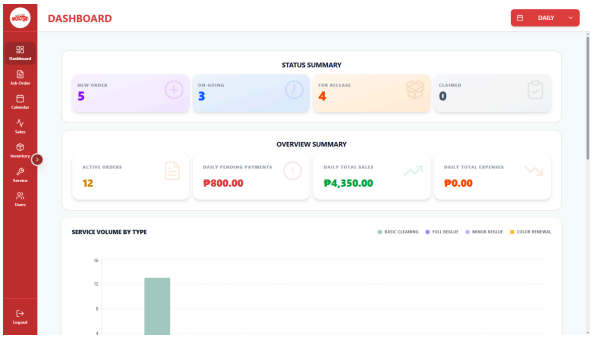

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_17	Login with Remember Me Enabled	Select **Remember Me** and click **Login**. Reopen the browser.	The system keeps the user signed in and redirects to the appropriate dashboard.		PASSED
TC_18	Logout	Click the **Logout** button.	The system displays "Logged out successfully!" and redirects to the Login page.		PASSED

SIDEBAR NAVIGATION AND HEADER CONTROLS

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_NAV_1	Navigate to Dashboard via Sidebar	Click the **Dashboard** menu option on the left navigation bar.	The system opens the main Dashboard screen immediately and highlights the Dashboard menu icon in green.		PASSED

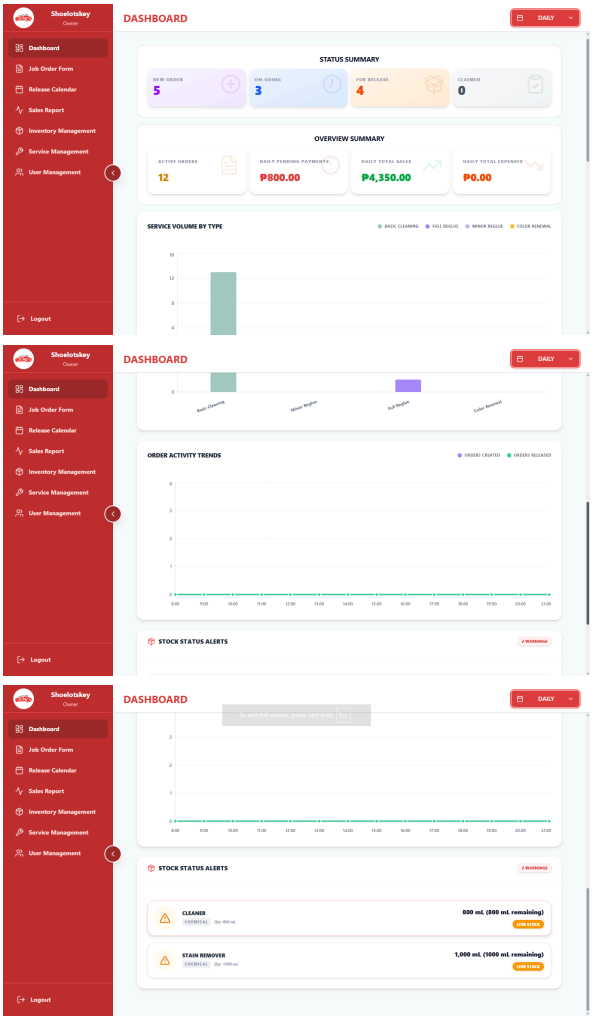

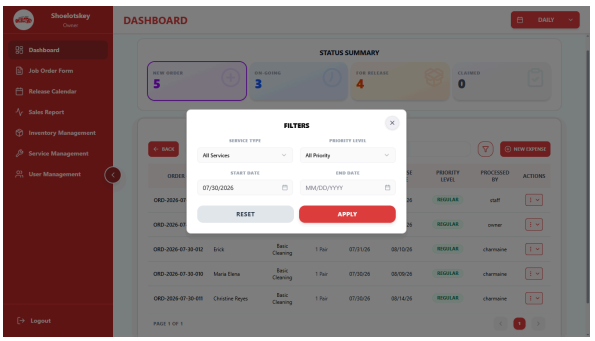

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_NAV_2	Navigate to Job Orders via Sidebar	Click the **Job Orders** menu option on the left navigation bar.	The system opens the Job Orders management screen showing all recorded customer cleaning job orders records.		PASSED
TC_NAV_3	Navigate to Release Calendar via Sidebar	Click the **Release Calendar** option on the left navigation bar.	The system shifts to the full monthly calendar schedule view showing colored order badges mapped to release dates.		PASSED
TC_NAV_4	Navigate to Sales Report via Sidebar	Click the **Sales Report** option on the left navigation bar.	The system loads the financial accounting summaries, profit calculation cards, and transaction records.		PASSED

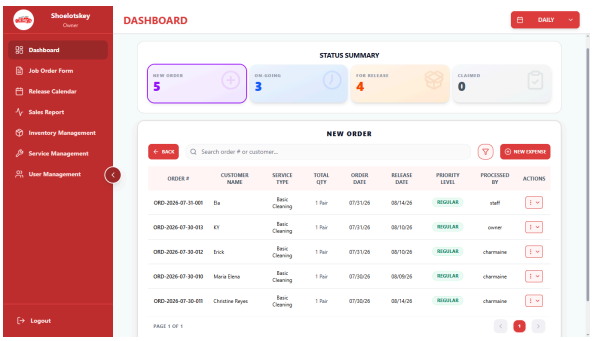

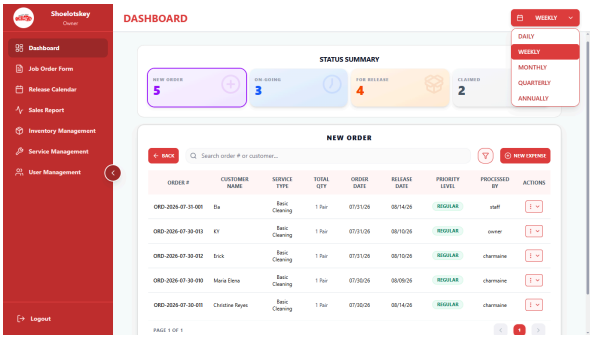

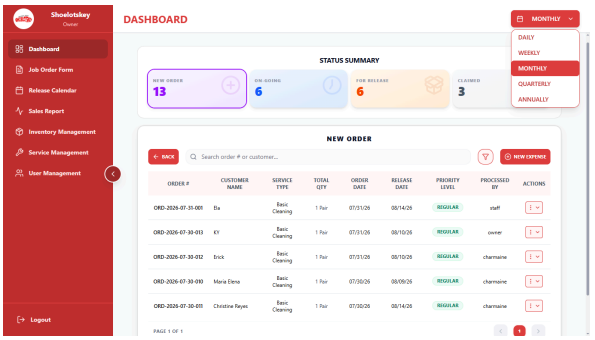

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_NAV_5	Navigate to Inventory Management via Sidebar	Click the **Inventory Management** option on the left navigation bar.	The system opens the workshop supply inventory table, cleaning bottles, and current stock levels.		PASSED
TC_NAV_6	Navigate to Services via Sidebar	Click the **Service Management** option on the left navigation bar.	The system displays the complete menu of offered base shoe cleaning treatments, add-ons, and prices.		PASSED
TC_NAV_7	Navigate to User Management (As Owner)	Log in as an Owner and click **User Management** on the sidebar navigation bar.	The system opens the employee user administration page, allowing the Owner to manage employee profiles and roles.		PASSED

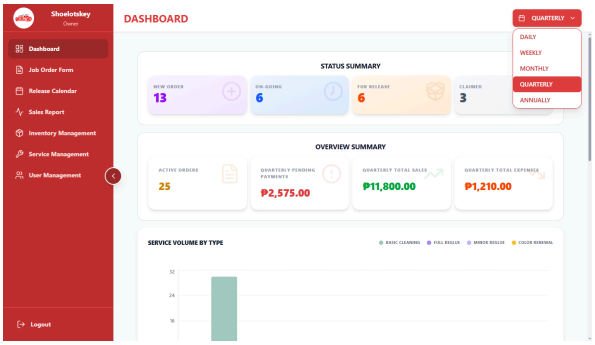

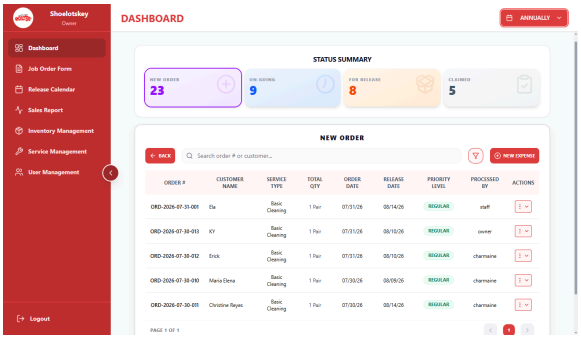

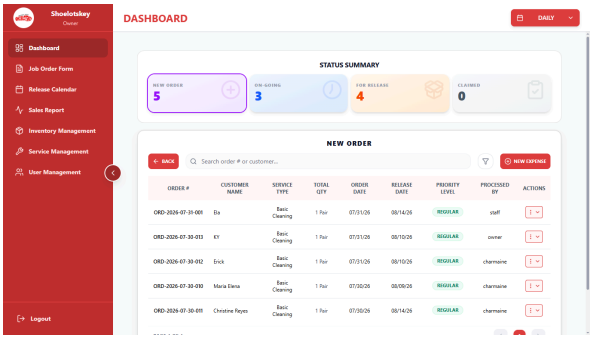

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_NAV_8	Verify User Management Hiding (As Staff)	Log in as a Staff member and look at the left navigation menu.	The system automatically hides the User Management menu button from Staff employees to preserve administrative security.		PASSED
TC_NAV_9	Collapse and Expand Sidebar Toggle	Click the **collapse (<) menu toggle arrow button** on the navigation sidebar.	The system shrinks the sidebar to show icons only for extra screen workspace, and expands back to show full text labels when clicked again.		PASSED

DASHBOARD MODULE SUMMARY AND SUMMARY DRILL-DOWNS

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_ DASH_ 1	View Dashboard Summary Cards	Log into the system and check the top summary calculation cards on the **Dashboard**.	The system displays accurate total numbers for Total Orders, Total Sales, Claimed Orders, and Pending Claims.		PASSED
TC_	Select Daily Date Filter Option	Click the date range filter dropdown and pick the **Daily** option.	The system displays strictly the orders and sales that were created and excludes past dates.		PASSED

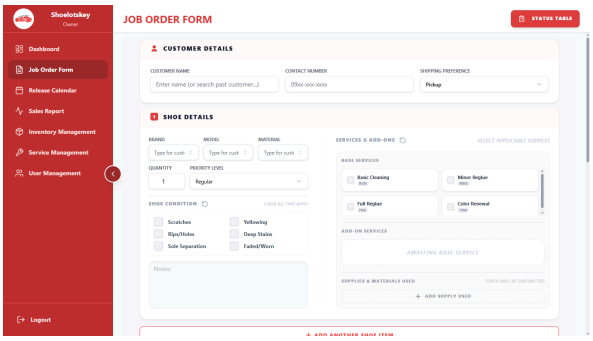

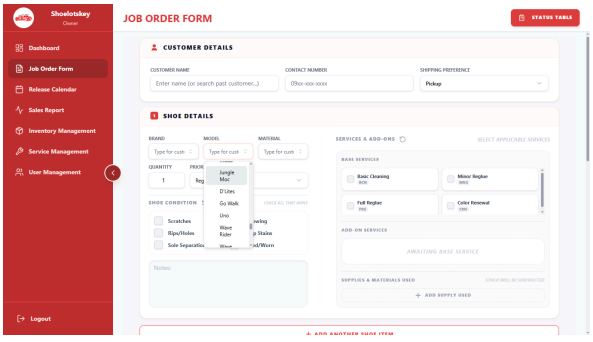

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
DASH_ 2					
TC_ DASH_ 3	Select Weekly Date Filter Option	Click the date filter dropdown and select the **Weekly** option.	The system updates the summary counts and transaction tables to show orders recorded during the current rolling week.		PASSED
TC_ DASH_ 4	Select Monthly Date Filter Option	Click the date filter dropdown and select the **Monthly** option.	The system re-calculates all summary numbers and customer lists to cover the entire selected calendar month.		PASSED

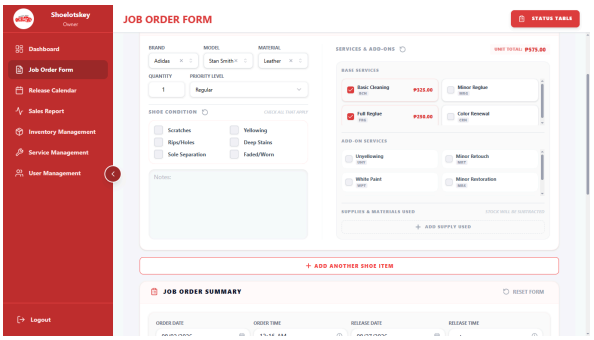

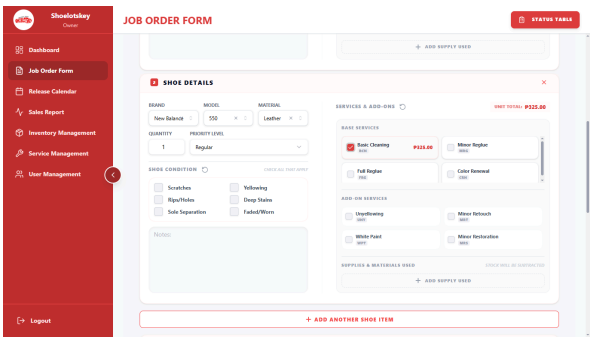

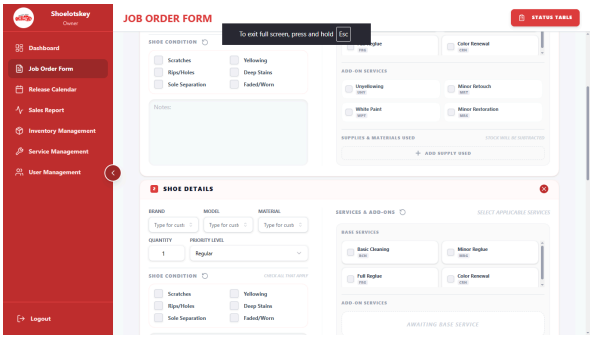

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_ DASH_ 5	Select Quarterly Date Filter Option	Click the date filter dropdown and select the **Quarterly** option.	The system recalculates and displays the Total Orders, Total Sales, Claimed Orders, Pending Claims, and transaction records for the selected quarter only. Data from previous or future quarters is excluded.		PASSED
TC_ DASH_ 6	Select Annually Date Filter Option	Click the date filter dropdown and select the **Annually** option.	The system tallies all orders, workshop expenses, and gross revenue accumulated across the entire calendar year.		PASSED
TC_ DASH_ 7	Click Back to Dashboard Navigation Button	On the Total Orders or Total Sales screen, click the ← **Back** to Dashboard" button at the top left.	The system smoothly navigates straight back to the main Dashboard screen without reloading the web browser.		PASSED

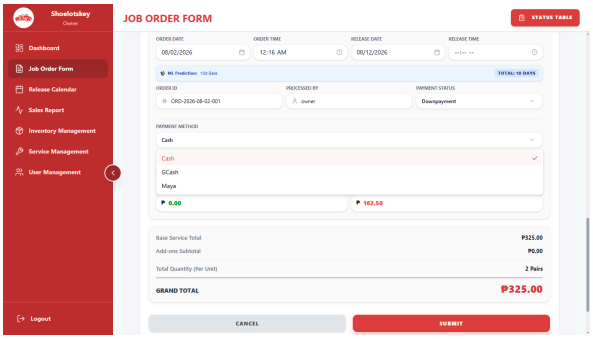

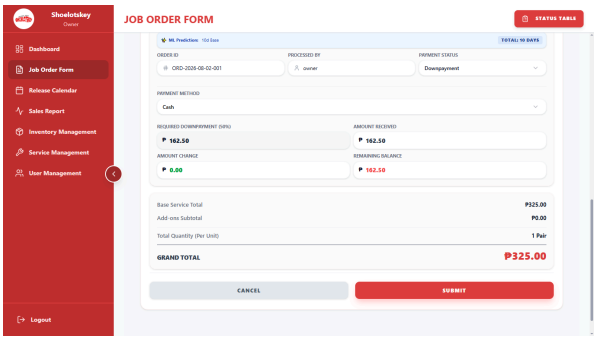

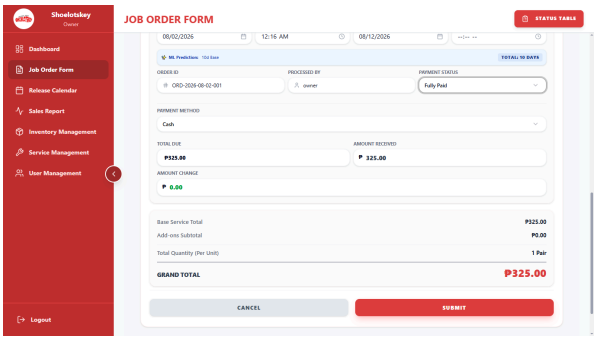

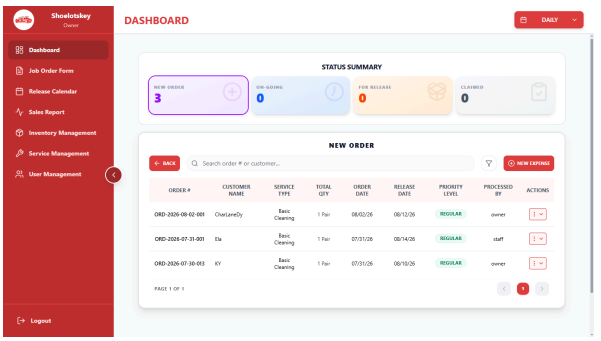

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_ DASH_ 8	Click Table Row to Open Order Detail Modal	On the Dashboard or Total Orders table, click anywhere directly on an order table row.	The system opens a pop-up window displaying full Customer Details, Schedule Details, and Job Order Summary without changing pages.		PASSED
TC_ DASH_ 9	Type in Quick Search Filter Input Box	Click inside the **search bar** and type a customer's surname, telephone number, or order ID.	The system filters the table immediately as you type, showing only orders matching the typed name or ID.		PASSED
TC_ DASH_ 10	Verify Owner Privileges on Dashboard	Log in as an Owner and inspect the available action buttons across the Dashboard screens.	The system shows administrative actions like User Management menu shortcuts and Trash/Delete buttons on order rows.		PASSED

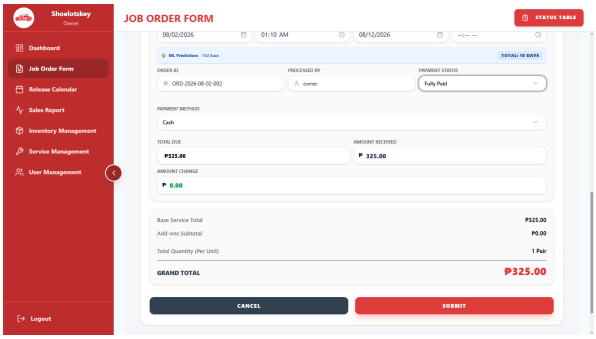

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_ DASH_ 10	Verify Staff Restrictions on Dashboard	Log in as a Staff member and inspect the available action buttons across the Dashboard screens.	The system hides Owner-only administrative features and completely removes the Trash/Delete buttons from all order rows.		PASSED

JOB ORDER CREATION AND PAYMENT OPTIONS

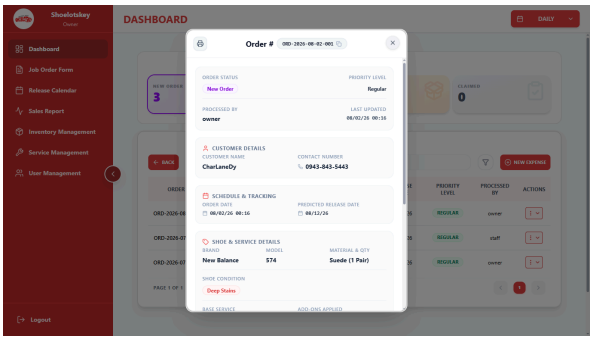

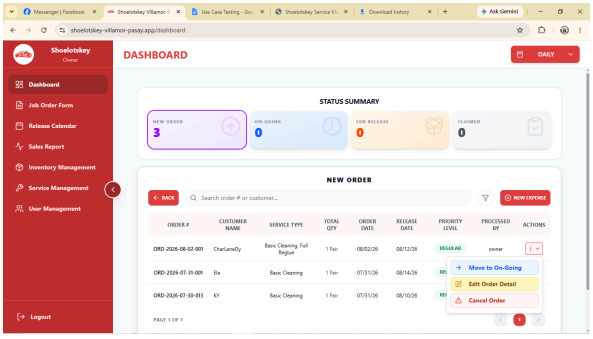

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_ JOF_ 1	Click Job Order Button	Click the **Job Order Form** button located on the Dashboard or Job Orders screen.	The system opens the clean Job Order intake form ready to record customer contact info and shoe cleaning requirements.		PASSED
TC_ JOF_ 2	Select Shoe Category Dropdown Options	Click the **Shoe Category** dropdown menu and pick between options: Brand,Model, and Material.	The system displays the chosen footwear category name on the item box and adjusts cleaning suggestions accordingly.		PASSED

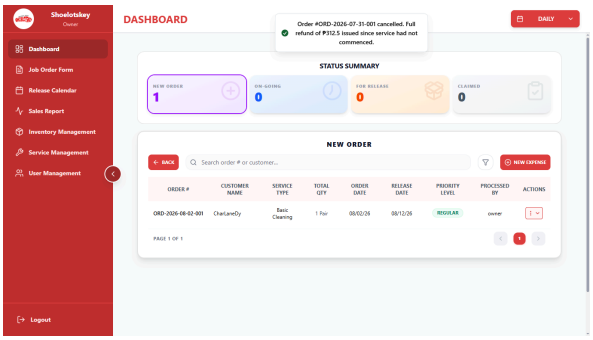

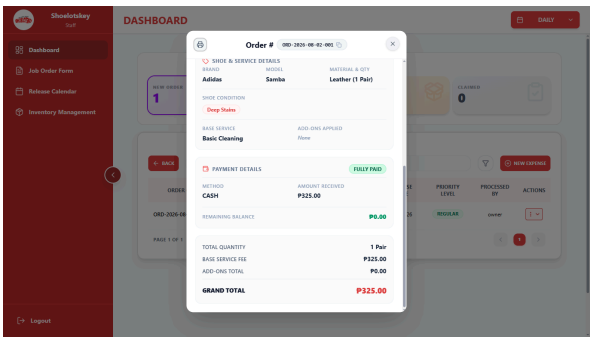

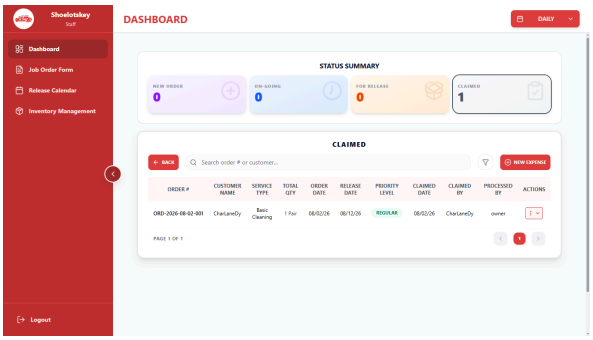

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_JOF_3	Select Base Cleaning Service Checkboxes	Click the **checkbox options** next to base cleaning services such as Basic Clean, Minor Reglue, or Full Reglue and other services offered.	The system checks the selected cleaning service and automatically adds its exact pricing into the live total fee shown on screen.		PASSED
TC_JOF_4	Click Add Another Shoe Button	Click the **+ Add Another Shoe Item** button at the bottom of the footwear selection section.	The system adds a second separate shoe box under the same customer ticket with its own category and cleaning checkboxes.		PASSED
TC_JOF_5	Click Remove Shoe Trash Button	On an order containing two or more shoes, click the small **Trash icon button** next to one of the shoe item boxes.	The system deletes that specific shoe from the customer order and recalculates the grand total by subtracting its cost.		PASSED

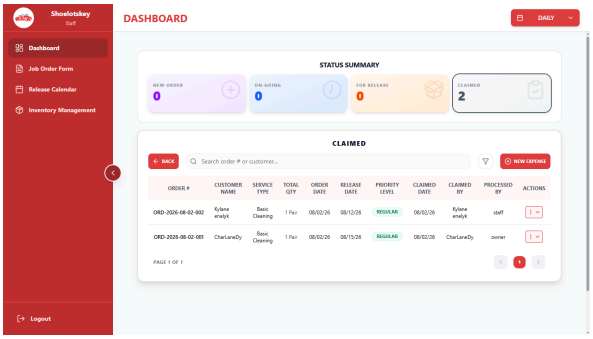

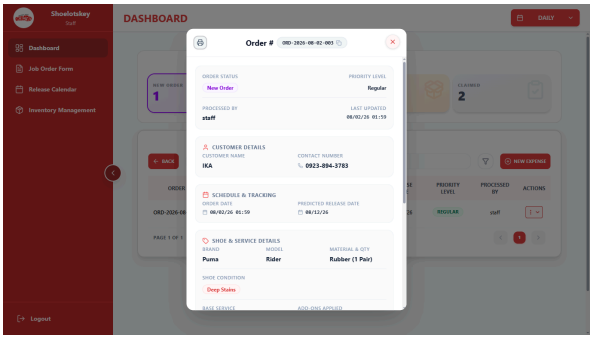

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_JOF 6	Select Payment Method Dropdown Options	Click the **Payment Method** dropdown menu and select an option: Cash, GCash, Maya.	The system selects the payment channel and attaches the correct payment		PASSED
TOC_JOF_7	Enter Downpayment Amount Option	Set total fee to ₱325, enter ₱162.2 into the Amount Received input box, and click **Save Order**.	The system calculates a remaining balance of ₱162.2, saves the payment status as Downpayment, and records the transaction.		PASSED
TOC_JOF_8	Enter Full Payment Amount Option	Enter an amount received that is equal to or greater than the total cleaning fee, then click **Save Order**.	The system automatically sets the payment status to Fully Paid, shows ₱0.00 remaining balance, and computes any change due.		PASSED
TOC_JOF_9	Click Save Order Button Output	Fill out all mandatory details and click the primary **Save Order** button at the bottom of the form.	The system creates the Job Order, assigns an order number like ORD-2026-08-01-001, saves, and shows a successful pop-up.		PASSED

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TOC_JOF_10	Click Cancel Form Button Output	Open the order form, type some details, and click the **Cancel button** or back arrow without saving.	The system closes the intake form, discards the typed details, and routes back to the Dashboard.		PASSED

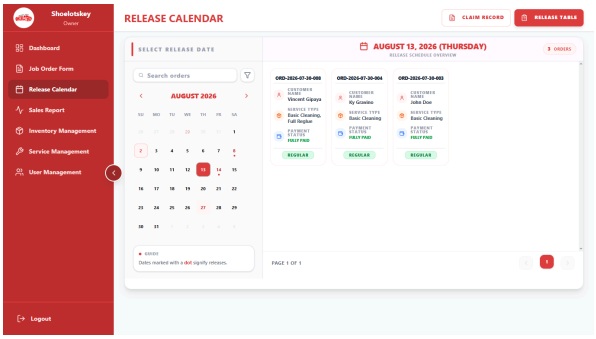

JOB ORDER MANAGEMENT, MODALS AND CLAIMING

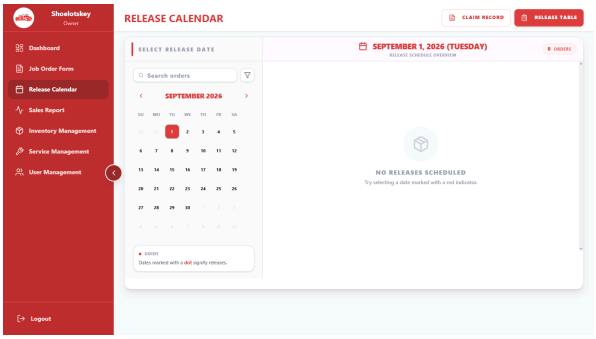

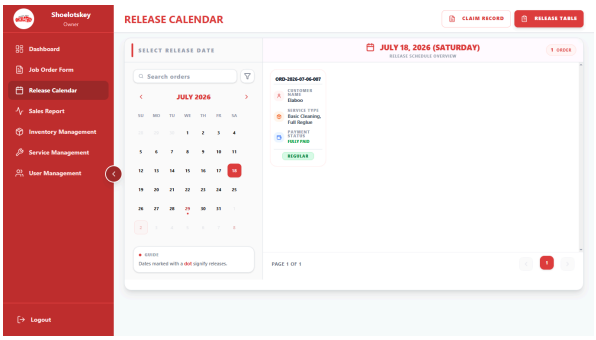

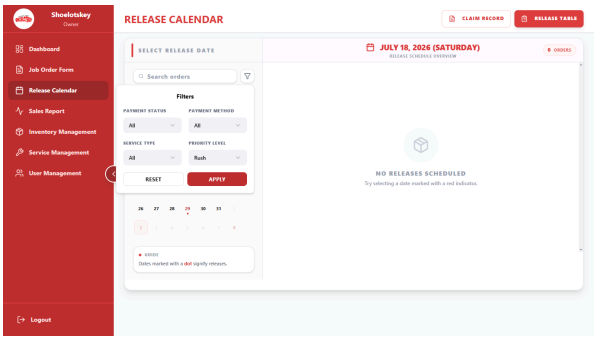

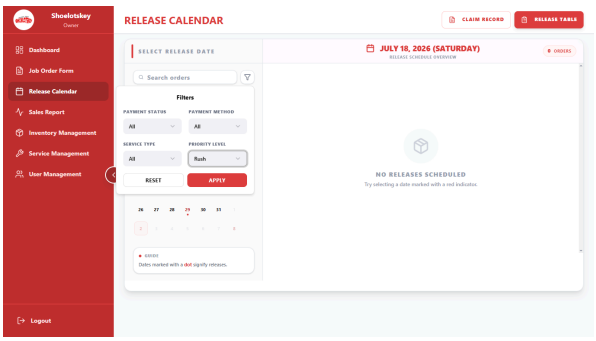

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_JOM_1	Click Table Row to Open Order Detail Modal	Click directly on an **active order** row inside the Dashboard list.	The system opens a pop-up window showing Customer Details, Schedule Details, Job Order Summary, and centered, elongated action buttons at the bottom.		PASSED
TC_JOM_2	Click Edit Order Detail Button and Save Button	Open an order, click **Edit Order Detail**, change cleaning services or promised release dates, and click the Save button.	The system saves the updated service selections and schedule dates, showing the new details across all dashboards immediately.		PASSED

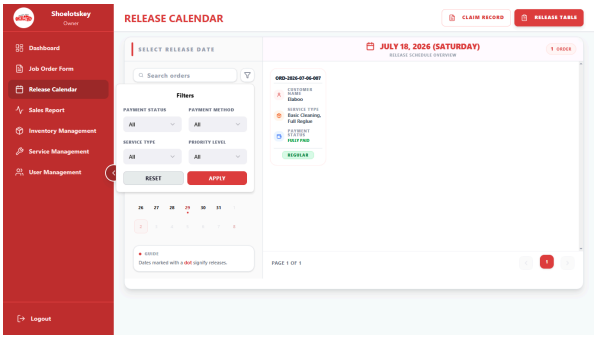

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_JOM_3	Click Delete Order Button (As Owner)	Log in as Owner, click the **Cancel Order** button on an order, and click "Yes, Cancel &Refund" on the warning prompt.	The system deletes the order from the list, displays "Your ORD-YYYY-MM-DD-001 cancelled. Full refund ₱325 issued since service had not commenced", and removes it from the screen.		PASSED
TC_JOM_4	Verify Staff Deletion Blocking	Log in as Staff and inspect an active order's action menu buttons.	The system hides the delete icon and completely prevents Staff members from removing any recorded orders.		PASSED
TC_JOM_5	Select Claim Payment Options & Confirm	In the Claim screen for a balance order, enter final payment received, pick Cash or GCash, and click **Confirm Claim**.	The system clears the customer balance, marks payment as Fully Paid, changes order status to Claimed, and records pickup time.		PASSED

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_JOM_6	Click Process Claim on Fully Paid Order	Click **Claimed** on an order where the customer already paid in full upon drop-off, then confirm.	Click "Process Claim" on an order where the customer already paid in full upon drop-off, then confirm.		PASSED
TC_JOM_7	Click Close / X Button on Order Detail Modal	While viewing an order in the pop-up detail window, click the **Close button or the X icon** at the top right.	The system cleanly closes the pop-up window without altering any order details and returns to the underlying list view.		PASSED

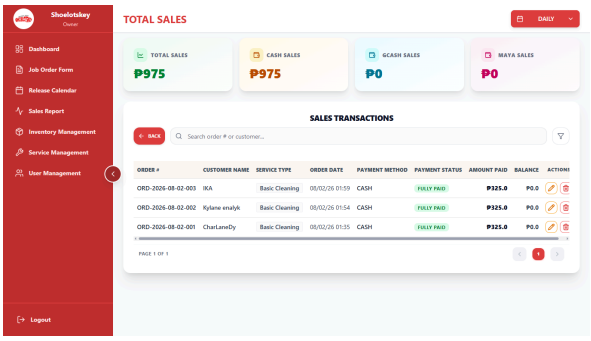

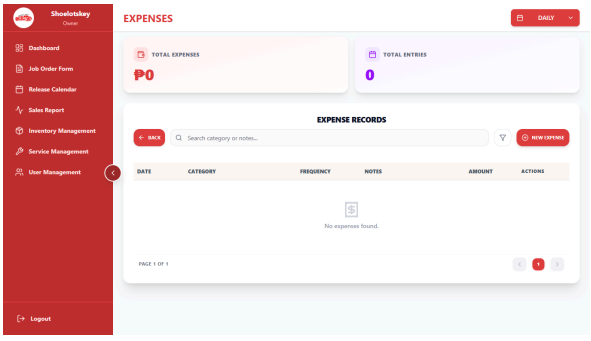

RELEASE CALENDAR NAVIGATION AND SCHEDULE FILTER

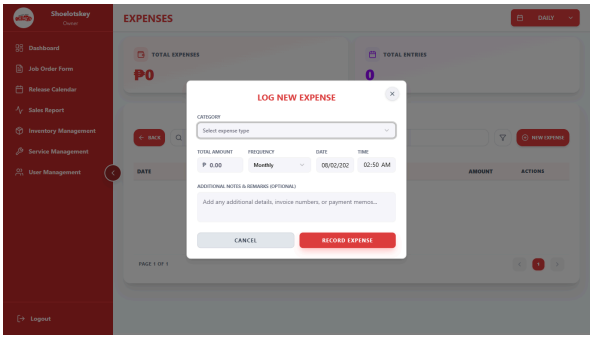

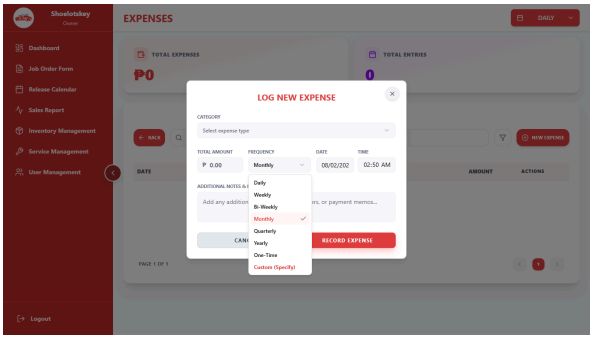

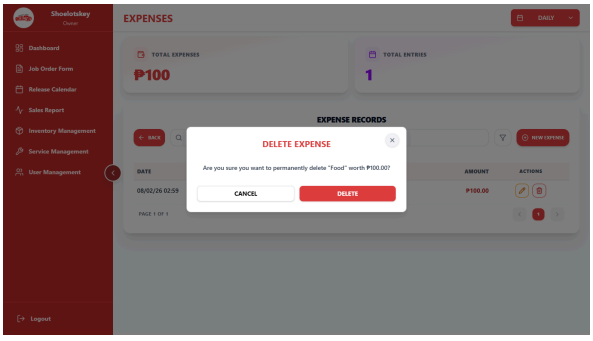

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_CAL_1	Click Release Calendar, Menu Link	Click **Release Calendar** on the left side menu navigation bar.	Click "Release Calendar" on the left side menu navigation bar.		PASSED

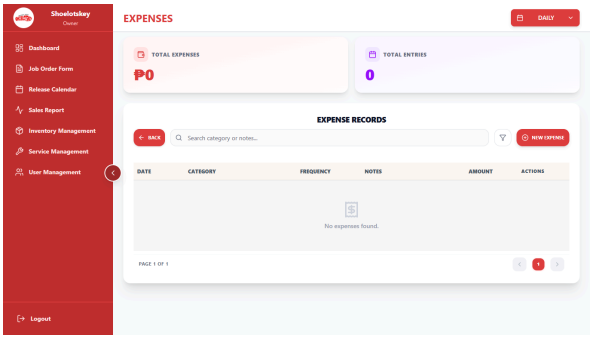

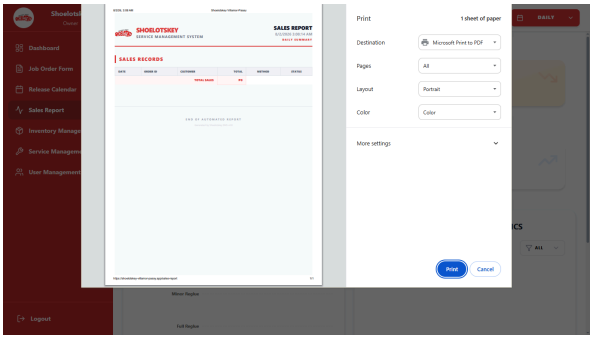

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_ CAL_ 2	Click Next Month (">") Navigation Button	Click the **right arrow navigation** button (>) at the top of the **calendar** header.	The system smoothly shifts to show the schedule for the next upcoming calendar month without freezing or lagging.		PASSED
TC_ CAL_ 3	Click Previous Month ("<") Navigation Button	Click the **left arrow navigation** button (<) at the top of the **calendar** header.	The system transitions backward to show past scheduled orders and completed releases from the previous month.		PASSED
TC_ CAL_ 4	Toggle Regular Priority Checkbox Filter	Check and uncheck the Regular service priority filter option checkbox at the top of the calendar.	The system hides or reveals all standard cleaning order badges on the calendar grid immediately upon toggling.		PASSED
TC_ CAL_	Toggle Rush Priority Checkbox Filter	Check and uncheck the Rush service priority filter option checkbox at the top of the calendar.	The system updates the calendar markers immediately to highlight only high-priority Rush cleaning tickets requiring quick workshop		PASSED

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
5			attention.		

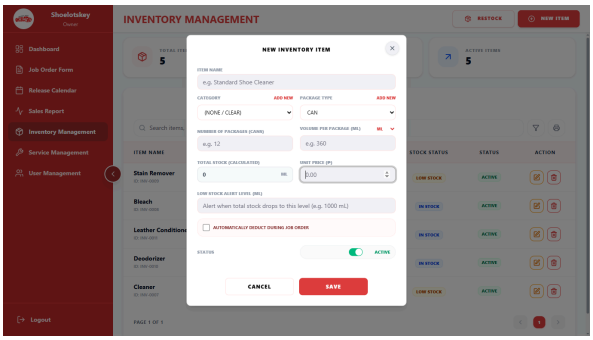

SALES REPORT & OPERATIONAL EXPENSES

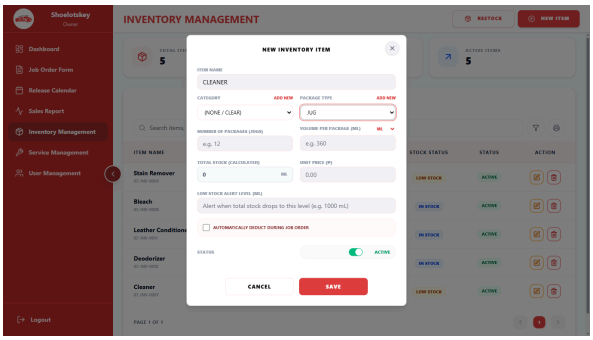

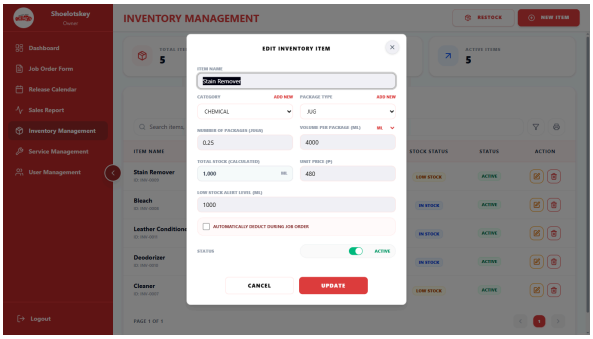

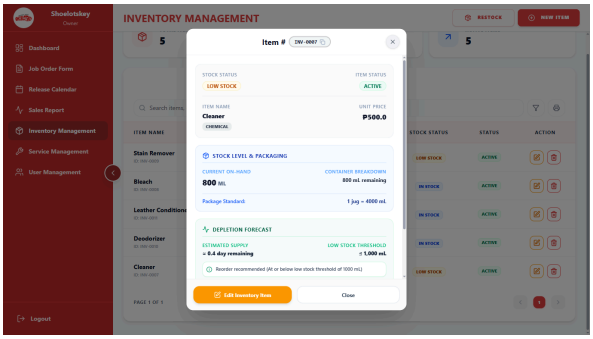

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_SR_1	Select Daily Date Range Filter Option	On the **Sales Report** page, select Daily from the time range filter dropdown.	The system shows exact revenue received, workshop expenses paid, and net profit calculated strictly from today's transactions.		PASSED
TC_SR_2	Click Total Expenses, Drill-Down Card	Click directly on the **Total Expenses** summary card from the report screen or dashboard picker buttons.	The system redirects to the full expenses list showing operational costs, dates, categories, and payment frequency.		PASSED

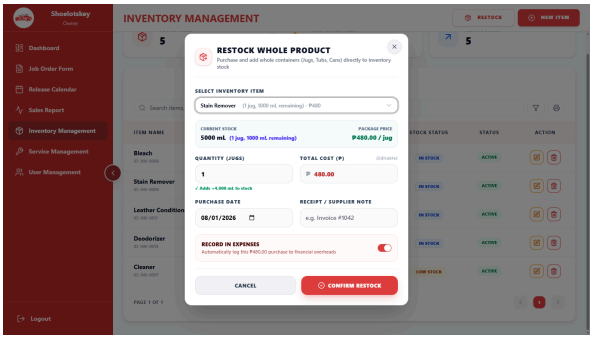

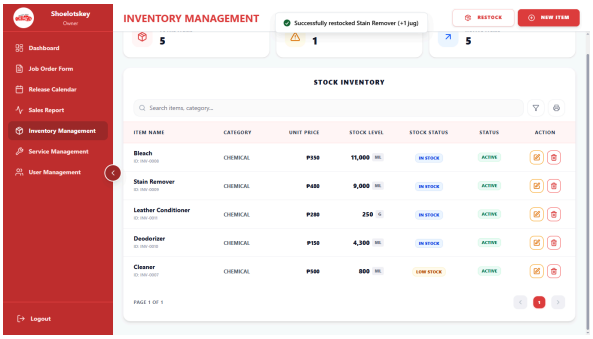

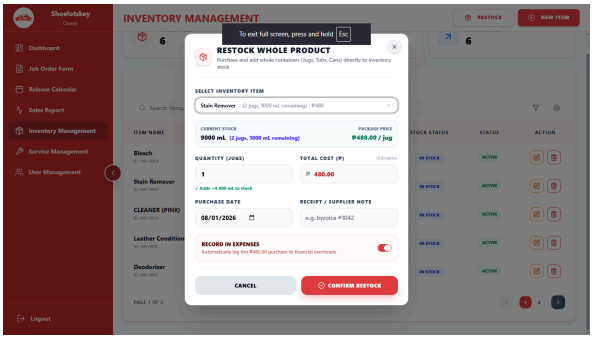

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_SR_3	Click New Expense Button & Select Categories	Click **+ New Expense**, select a Category dropdown option Utilities, Supplies, Rent, Salaries), input total amount, frequency, date, time, and notes, and click **record expense** .	The system records the new expense under the chosen category, lists it in the table, and immediately subtracts the amount from net profit.		PASSED
TC_SR_4	Select Expense Frequency Dropdown Options	When adding an expense, choose a Frequency option: One-Time, Weekly, Monthly, or Annually.	The system assigns the selected recurring or one-time payment frequency label to the expense record for accounting categorization.		PASSED
TC_SR_5	Click Expense Trash Delete Button & Confirm	Click the Trash icon button on an expense row and click **Delete** inside the confirmation pop-up box.	The system deletes the expense record from the list and immediately adds the previously deducted money back into the net		PASSED

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
			profit totals.		
TC_SR_6	Click Print Financial Report Button	Click the **Print Report** or export button on the top right of the Sales Report screen.	The system formats the currently visible accounting summary into a clean, professional document ready for physical printing.		PASSED

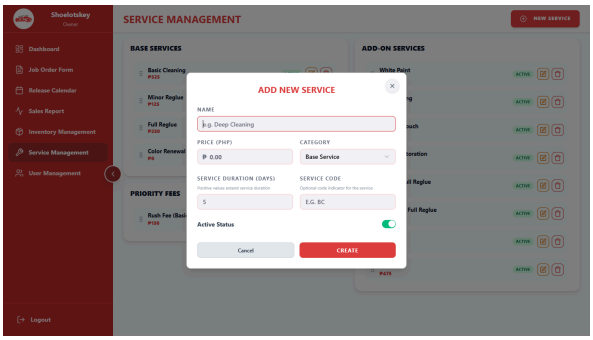

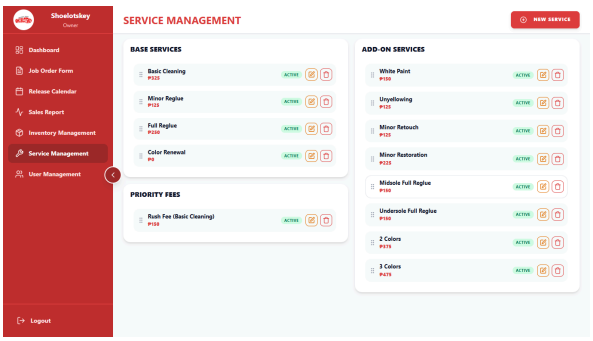

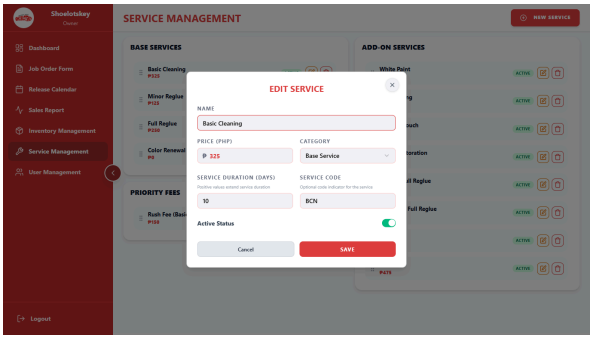

INVENTORY MANAGEMENT & STOCK UPDATES

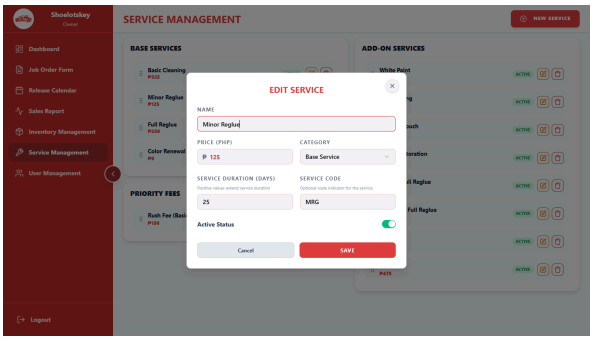

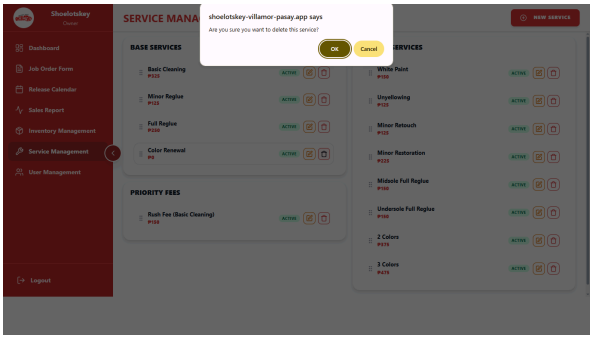

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_INV_1	Click Add New Item Button	Click **+ Add New Item**, enter name, set unit to "pcs", enter starting stock (100) and low-stock reminder limit (20), then save.	The system saves the supply item, lists it in the inventory table, and monitors its remaining active stock quantity.		PASSED

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_ INV_ 2	Select Packaged Item Container Options	Add an item, select the **Packaged Type** container checkbox, choose Package Unit option "CAN", Package Size 350, and Consumption Unit option "mL".	The system automatically calculates overall fluid volume in mL example 10 cans = 3,500 mL for precise workshop usage tracking.		PASSED
TC_ INV_ 3	Click Update Inventory Modal Button on Order	Open an active customer order and click the "**Update Inventory**" button.	The system opens the Update Inventory pop-up window allowing staff to select cleaning chemicals and materials used during service.		PASSED
TC_ INV_ 4	Verify Low-Stock Warning Badge Option	Reduce an item's remaining stock until it drops below its assigned **low-stock** reminder limit example < 20 pcs.	The system changes the item badge to a noticeable red/amber "Low Stock" warning on the Inventory screen to remind staff to reorder.		PASSED

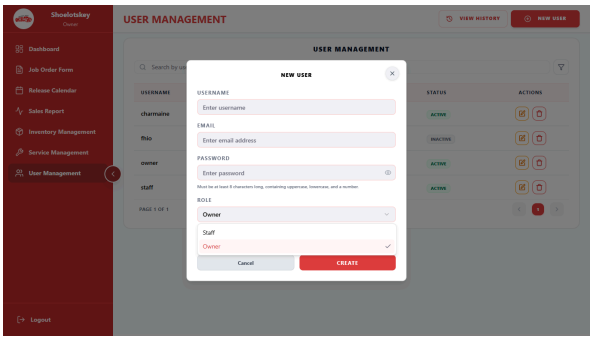

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_INV_5	Click Restock Modal Button	Click the **Restock** button on an inventory item row, type added quantities example +5 Cans, input an invoice receipt number, and save.	The system increases total active warehouse stock by the added containers (e.g., +1,750 mL) and logs the restock receipt in history.	 	PASSED
TC_INV_7	Click Restock Cancel Button	Open the Restock window for an item, enter numbers, but click the **Cancel button** without saving.	The system closes the restock window without saving the inventory addition and keeps shelf stock numbers unchanged.		PASSED

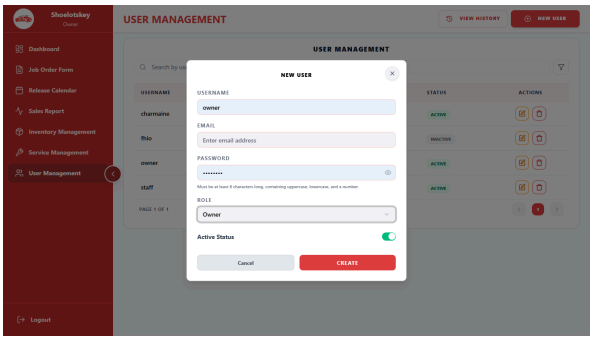

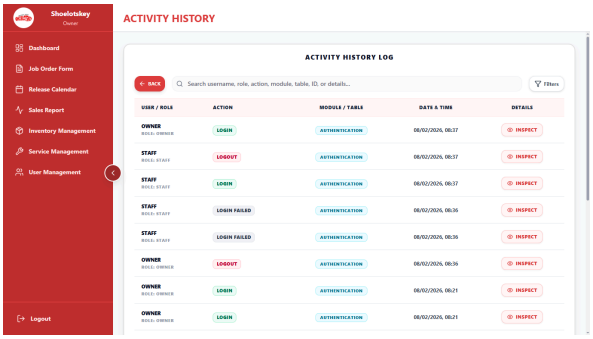

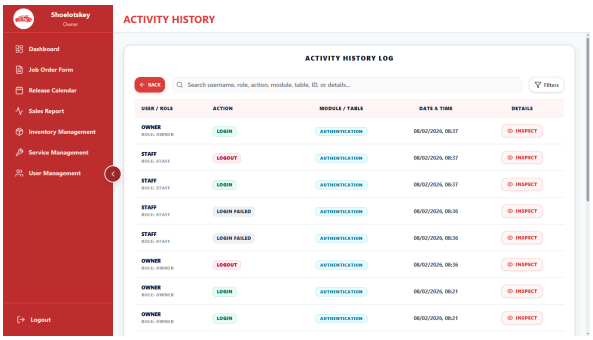

SERVICE MANAGEMENT MODULE

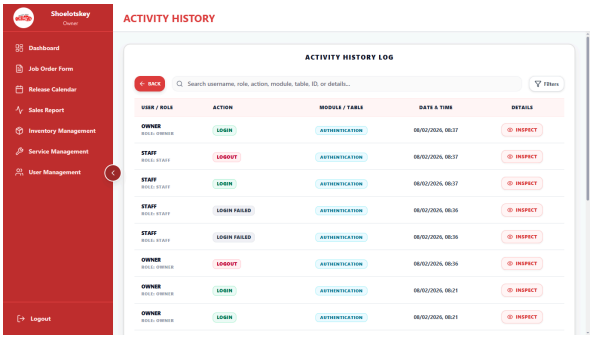

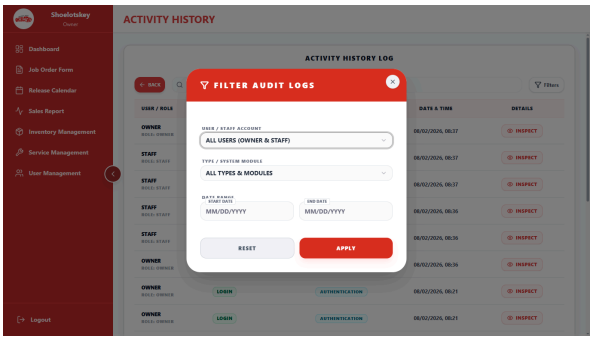

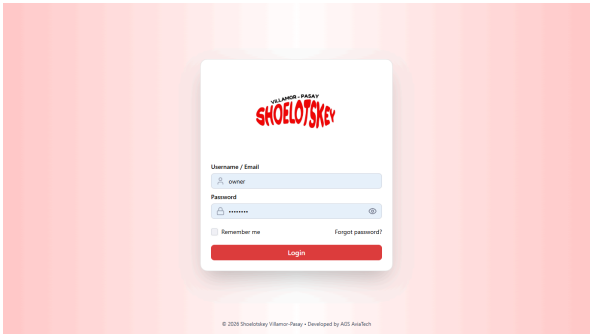

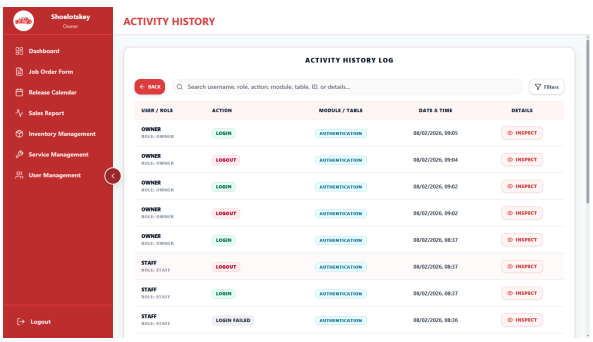

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_SM_1	Click Add New Service Button & Select Base Option	Click **Add New Service**, input a name Basic Cleaning, set the price ₱325, pick the Base Service category option, and save.	The system creates the cleaning service and immediately adds it to the base service selection choice		PASSED
TC_SM_2	Select Add-On Treatment Category Option	Click **+ New Service**, input a name (Water Repellent), set price (₱250), choose Add-On category option, and save.	The system makes the add-on treatment available as a selectable checkbox option when staff members create new orders.		PASSED
TC_SM_3	Click Edit Price Button & Submit Update	Open an **existing service,** change its regular cleaning price from ₱450 to ₱500, and click Update.	The system applies the new ₱500 rate to future orders while leaving past customer invoice agreements unchanged at the older rate.		PASSED

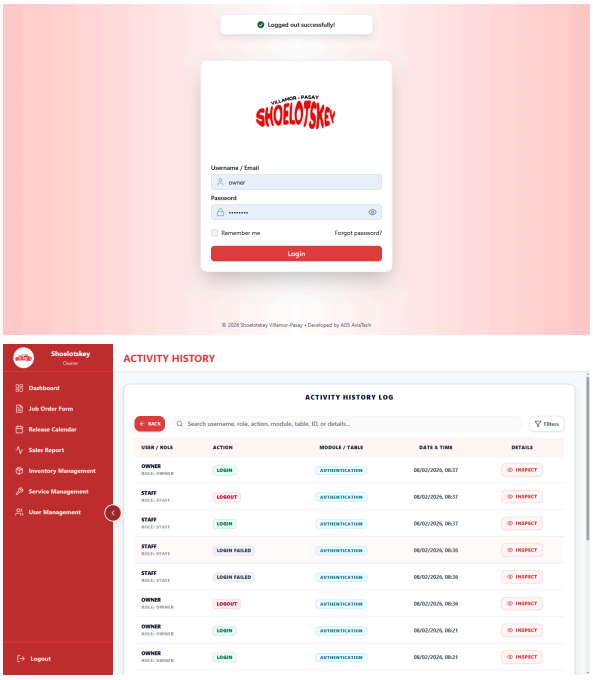

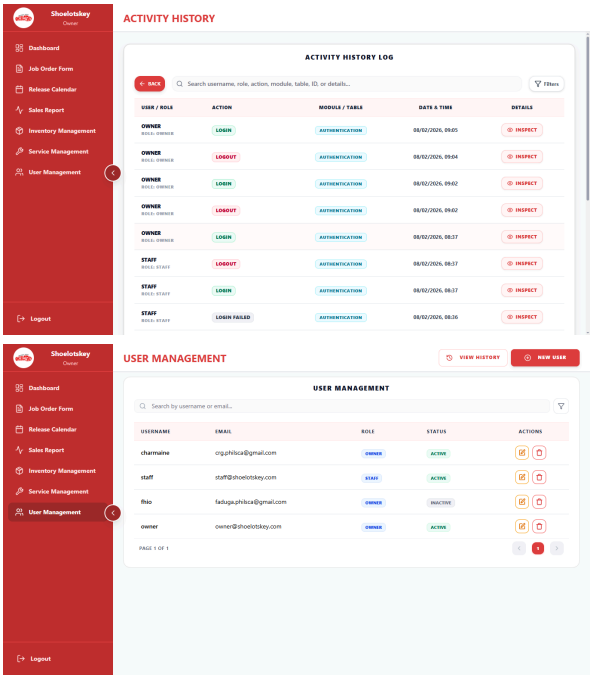

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_SM_4	Toggle Service Active / Inactive Switch	Toggle the **active status switch from Active to Inactive** on an old or discounted seasonal service.	The system removes the service from new order selection lists while preserving old historical orders that previously used it.		PASSED
TC_SM_5	Click Delete Service Trash Button & Confirm	As Owner, click the **Delete** button next to an unused cleaning service and click Delete on the prompt.	The system completely removes the unused service offering from the menu list and database.		PASSED

USER MANAGEMENT MODULE (OWNER ONLY)

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_USR_1	Click Create User Button & Select Staff Role Option	Log in as Owner, open User Management, click **+ New User**, fill out details with Owner or Staff role option selected, and save.	The system creates the staff profile, saves login credentials securely, and allows the staff member to log in immediately.		PASSED

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_ USR_ 2	Select Owner Role Dropdown Option	Log in as Owner and provision a new employee account with the administrative Owner privilege role option selected.	The system generates a new administrative user possessing full capabilities to manage expenses, users, and order deletions.		PASSED
TC_ USR_ 3	View Activity History Log	Log in as the Owner and open the **Activity History** module.	The system displays a list of activity logs with User/Role, Action, Module/Table, Date & Time, and Details columns.		PASSED
TC_ USR_ 4	Search Activity Log	Type a username, role, action, module, table, ID, or keyword in the search bar.	The system filters the activity logs in real time and displays only matching records.		PASSED

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_ USR_ 5	Open Activity Details	Click the **INSPECT** button of any activity log entry.	The system opens a detailed view displaying complete information about the selected activity.		PASSED
TC_ USR_ 6	Apply Activity Filters	Click the **Filters** button and select filter options such as Action, Module, Date, User.	The system displays only activity logs that match the selected filter criteria.		PASSED
TC_ USR_ 7	Verify Login Activity Recording	Log in using a valid user account.	The system automatically records a **LOGIN** activity with the correct user, module, date, and time.	 	PASSED

TEST CASE ID	TEST CASE TITLE	ACTIONS	EXPECTED OUTPUT	ACTUAL OUTPUT	REMARKS
TC_ USR_ 8	Verify Logout Activity Recording	Click the **Logout** button.	The system automatically records a **LOGOUT** activity with the correct user, module, date, and time.		PASSED
TC_ USR_ 9	Back Navigation	Click the **BACK** button from the Activity History page.	The system returns to the previous User Management screen without errors.		PASSED
