	Bachelor of Science in Applied Mathematics Magna Cum Laude DOST - SEI Scholar

INTERESTS

Software Development, Full-Stack Development, Theoretical and Applied Mathematics, Playing Violin and Piano

SKILLS

Proficient in	Web, Mobile, and Desktop Application Development
	Django Web Application Framework
	Python Flask Web Framework
	Java Programming Language
	Java Server Pages (JSP)
	Android Programming
	Python Programming Language
	PHP (Code Igniter and Native)
	MySQL, SQLiteJava Derby (JavaDB)
	Hypertext Markup Language (HTML), CSS, JavaScript
	NetBeans IDE
	Adobe Photoshop
	Adobe Indesign
	Inkscape Vector Graphics Software
	Windows Operating System
	Microsoft Office (Word, Excel, PowerPoint, Access, Publisher)
	LibreOffice (Writer, Calc, Impress, Draw, Math)
	Pure and Applied Mathematics (Basic and Advanced)
Knowledgeable in	Computer Maintenance
	Hardware and Software Troubleshooting
	C# Programming Language
	Microsoft Visual Studio
	Adobe Dreamweaver
	Ubuntu Operating System

ACHIEVEMENTS

February 2025	**2024 Philippine Science High School System Sinagtala Award on Innovations** Philippine Science High School
June 2012 – September 2022	**University Planning and Development Assistant (Designation)** West Visayas State University
March 23, 2011	**Outstanding Graduate in BS Applied Math. Curriculum** West Visayas State University

PROJECTS

- **School Management System**. A comprehensive digital platform for streamlining academic administration, enabling efficient grade submission, holistic student tracking, and automated generation of critical academic documents like report cards and permanent records.
- **Daily Time Record Management**. An advanced automated system that simplifies workforce time tracking for government and private institutions, eliminating manual record-keeping complexities and improving operational efficiency.
- **Real-time Biometrics Machine**. A cutting-edge solution that seamlessly integrates biometric time logging, automatically recording employee attendance and directly transferring data to your information system without manual intervention.
- **Procurement and Inventory System**. A robust, specialized system engineered to optimize government procurement processes, providing comprehensive tracking, real-time management, and detailed reporting of supplies and equipment inventories.
- **Passage Monitoring System**. An innovative student safety solution that tracks student movements within school premises, generating instant SMS notifications to parents, ensuring real-time communication and enhanced campus security.
- **Issuance Management System**. A sophisticated digital platform for centralized management of official documentation, including memoranda, letters, guidelines, and related communications across governmental and private organizational contexts.
- **School Mobile App**. A dynamic mobile application designed to bridge communication gaps, providing parents and students with instant access to school activities, critical announcements, and the latest educational news.
- **Payroll System**. A comprehensive financial management tool tailored for private institutions, automating salary calculations, tax computations, and providing detailed employee compensation processing.
- **Invoicing System**. A powerful transactional application that accelerates billing processes, facilitates rapid invoice generation, and supports more efficient financial workflows.

SEMINARS/TRAININGS ATTENDED

- *Building Python Web Apps with Flask*
- *Programming for Intermediate Users Using Python*
- *Programming for Beginners using Python*
- *Intermediate Level of Software Engineering*
- *Basic Level of Cloud Computing*
- *Seminar/Workshop on the Midterm Review and Updating of 2017-2022 Higher Education PDP Indicator as Inputs to Updating of Program Expenditures Classification (PREXC) Indicator and Programs, Activities and Projects for SUCs in Region VI, VII, and VIII*
  11/06/2019 to 11/07/2019
- *Faculty Training for the New General Education Core Courses*
  05/21/2018 to 05/26/2018

- *Workshop on Updating and Uniformity of the OBEdized Syllabus for Major Subjects in the Second Year*
  06/02/2016 to 06/03/2016
- *Integration of Technology in Mathematics and 6th Inter-Tertiary Mathematics Quiz Competition*
  02/27/2016 to 02/27/2016

OTHER ACCOMPLISHMENTS

August 2026	**Programmer / Systems Analyst**
	Alumni Tracking System, Procurement and Inventory Management System, Attendance Monitoring System, School Managment System, Daily Time Record System, Laboratory Equipment Inventory System
	Philippine Science High School – Western Visayas Campus
October 2022	**Programmer / Systems Analyst**
	Registrar Management System
	Philippine Science High School – Western Visayas Campus
March 2022	**System Administrator**
	GS Moodle Plus - Implementation of Moodle
	GoveSmart Solutions Incorporated
January 2021	**System Analyst**
	Development of a Web-Based Agriculture Data Repository Project
	Department of Agriculture
	Regional Office 6
January 2021	**Programmer**
	Verity Baptist Church Mobile App
	Verity Baptist Church Manila
	Manila
June 2020	**Programmer**
	Nadej Online Grocery Android App
	GoveSmart Solutions Inc.
	Iloilo City
July 2019	**Programmer**
	Faithful Word Baptist Church App
	Faithful Word Baptist Church
	Tempe Arizona, USA
